

(FRONT)

Living Unborn Baby Girl at 16 Weeks

HEY!
THOSE
ARE MINE!

(BACK)

These are my hands and feet.
As you see, my fingers and toes are formed,
and I can even **suck my thumb.**

But babies like me have no rights.
We are routinely killed in
dismemberment abortions.

In Louisiana, abortion facilities use forceps
to perform this "procedure," tearing
thousands of our little lives apart...

...LIMB BY LIMB.

Instead of killing us, please
give our innocent lives a chance.

You will never know the blessings
we can bestow on our state
IF you just allow us to live!

Take Action!
