Please download the app "signal" and email me your number on there. This works like texting but is more secure.

When was your last period? So you know, pregnancy is measured from the first day of your last period.

Have you confirmed a pregnancy with a test? Like the kind you pee on.

A little before I think...I thought I was just gaining weight cause I was stressed I didn't mean for this to happen. I can't have a baby.

I understand. Based on my due date calculator you are probably around 21 or so weeks. At this gestation it is more difficult to do at home. It will be like birth and require you to dispose of the fetus somewhere private. Do you think you can do this at home and bury/dispose of it safely?

what do I do now

[Quoted text hidden]

I know, this is a really hard situation for you. Make sure you can trust your friend completely not to discuss this with anyone. It can be legally risky to involve other people but no one should go through this alone.

Are your parents abusive or would you be forced into having the baby? I understand they would be upset and disappointed but if you can tell them we could figure out a way to get you an abortion out of state.

If you can't disclose we can still help you. I'm attaching a fact sheet for info you will need. Do you have anywhere else you could read fact sheet besides the library for your privacy?

[Redacted] Thu, May 9, 2024 at 4:21 PM

Okay, you will need somewhere to do the pills and bury the product. It can take a day or longer to fully complete. The pills will take a bit to come to you, they should be shipping tomorrow. Read the sheet I sent you and let me know if you have any other questions.

I can refer you to a doula to support you in person if that is something you would like. Lmk.

tx for the sheet. you can send the pills to me?

[Quoted text hidden]

---

[Redacted] Thu, May 9, 2024 at 4:23 PM

Yes the pills will ship tomorrow. Make sure to follow up to the original email with a name and address.
